What did you like best about the program:

Knowledge! His energy! Being honest & sharing. Humor. Very enthusiastic speaker(X6). Free and interesting. Builds good foundation with examples. Presenter keeps explanations simple. Sage rocks! Vibrant speaker, good examples. Basics, presentation style. Great content (X7) presented in a lively, animated manner. He is a crazy person. Content of program was great-it was what I expected and needed(X5). Hands on. He loves what he does & I could understand most of it. Answering questions. I thought he was excellent!

What did you like least about the program:

Would have liked to dive into technical info sooner and deeper. Difficult to see screen (X2). Needed a bit more than basics-looking forward to Part II. Some of the information is pretty superficial. A little more advanced. Not enough time. Lot of fluff. "Slow down & would be better if you brought your computer, and one-on-one maybe I'd be willing to pay for that...explain terms." Too fast. Everything was great!

Excellent presenter-kept subject matter interesting with his enthusiasm. "Sage needs some 5-HR energy!" I just learned that there is no beer allowed in the library...maybe we should do the presentations at Kepner's! Good cookies. I enjoyed Sage! I have visited his website & watched his youtube videos.
